Dear Parents and Guardians,

We continue to be appreciative of your patience, grace, and trust as we work to provide a safe and engaging educational experience for our students and staff during these challenging times.

As we have communicated prior, our reopening plan has been reviewed and approved by the Clark County Health Department for our district to operate at full capacity. At this time, we are prepared to fully implement this plan and bring all of our students back on campus for in-person instruction beginning Aug. 24. Safety measures as outlined in the plan will be in place, including required facial coverings when social distancing is not possible, assigned seating in the classrooms, the cafeterias, and on the buses. We are also implementing extra handwashing and sanitizing procedures, which are also outlined in this plan. We are reminding parents to screen students for symptoms at home before sending them to school. If your student is awaiting the results of a COVID-19 test, do not send your student to school. To read the district reopening plan and building-specific plans, head to [www.Clarksvilleschools.org](http://www.Clarksvilleschools.org) and click the “Reopening Plan” link found under the Parents tab.

Just as a reminder, for those parents who are interested in extended online learning, we offer Indiana Digital Gateway Academy. This entirely online school is staffed by its own dedicated team of Indiana-certified teachers with district oversight responsibilities.

If this pandemic has taught us anything, it is that situations can change abruptly and we must be able to adjust accordingly. With that being said, we plan on having our students on campus full-time for the foreseeable future. However, should we need to make additional adjustments we will continue to communicate with you in a timely fashion.

We look forward to seeing our students in person Aug. 24th and continuing the learning that has been taking place remotely!

Regards,  
Erin Walden
